Please join us for two lectures with a brief hands-on workshop on socket grafting and the packer/sinus bump technique. Whether you are a Restorative Dentist with little understanding of these techniques or an experienced Practitioner in grafting and implant placement, there is something to be learned by all at this course.

Course Objectives:

- To gain a better understanding of the concepts of socket grafting and the packer/sinus bump technique.
- Learn to recognize the options available to your patients and educate them.
- Proper diagnosis and treatment planning of simple to complex cases.
- Hands-on portion for better visualization of the concepts and techniques covered in the course.

Dr. Ferguson is the founder of Implant Educators Comprehensive Interdisciplinary Implant Training Program, he has been involved in teaching implant dentistry for the last 20 years and has lectured in every major city in the United States as well as internationally in Saudi Arabia, India, Argentina, Taiwan, South Korea, Jamaica, Antigua and the Bahamas.

Dr. Acker is a faculty member of Implant Educators, he is a Diplomat of the ICOI, MAGD Academy of General Dentistry and Adjunct Professor at the University of Florida College of Dentistry. He has a full time practice in Venice, FL
